## Deposit Methods At BookMaker

This is because depositing with Bitcoin takes away the risk of your bank flagging any international purchases.

With BookMaker being a licensed sportsbook in Costa Rica, a lot of banks will hold up the transaction because the charge is coming from overseas.

They have Visa, Mastercard, and American Express options.

When it comes to depositing funds with BookMaker, cryptocurrencies are the most reliable and efficient route to take.

Depending on the bank, there will be a fee attached to the deposit.

This method is only for big bettors, with a \$2,500 minimum deposit.

On the bright side, there is no maximum limit but the processing time will take anywhere from 1-5 days.
