There are differences between each Blackjack game which you should be aware of b

efore beginning to play:

If both you and the dealer have 21, you will win instead of a push (or tie), and

this version of the game allows the dealer to stand on 17 if he has an Ace.

Double Attack: Adds the option to "Double Attack" when the dealer recei

ves his first card, which doubles your bet.Odds and Payouts

Insurance: Think of Insurance as betting on the dealer having a Blackjack.

To optimize your chances with a pair of Aces always split them.

You can only choose the surrender option at the start of your turn, but when use

d correctly it can help to reduce your losses.
